**Quetion 4**

Implements the piecewiseFunction in Question 4, to perform a brightness and contrast on a mono-chrom image

```
close all; clear; clc;
I = imread('us_27743.pgm');
c = 10;
b = 15;
```

piecewiseFuction call

```
J = piecewiseFunction(I, c, b);
subplot(1,2,1), imshow(I)
subplot(1,2,2), imshow(J)
```
